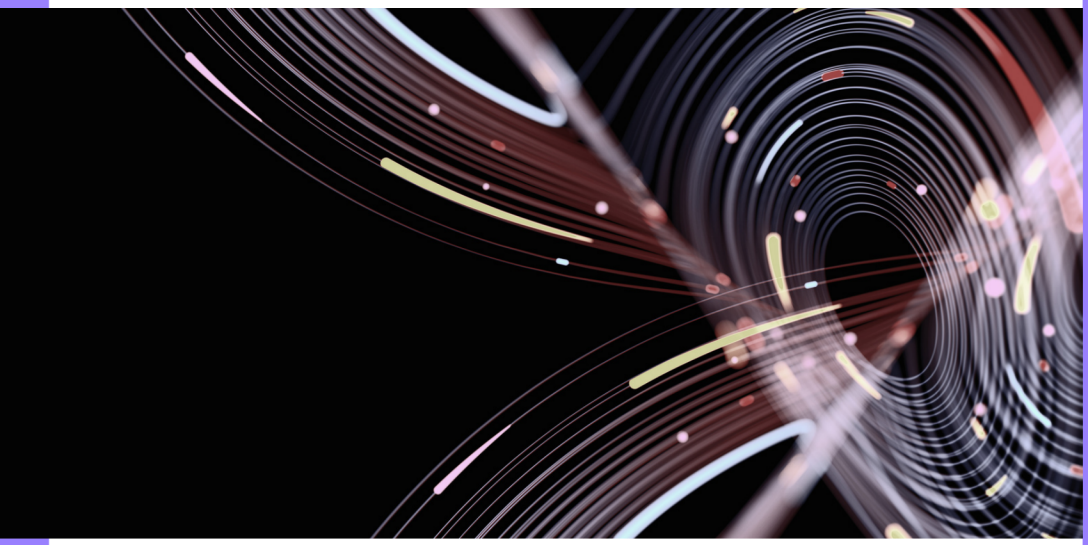
POLLY/ai

ARTIFICIAL **INTELLIGENCE**



Polly/™ AI: The future is now.

Bolstered by Polly's proprietary technology and data, Polly/™ AI leverages powerful AI/ML and natural language processing (NLP) to transform the way loan officers conduct business and provide consumers with superior mortgage products and prices.

- **Make ineligible loans eligible**: Polly/™ AI will comprehend and articulate recommendations based on ineligibility data, transforming complex statements into actionable advice.
- **Compete more effectively**: Sophisticated data analysis will identify and communicate scenarios that might otherwise be overlooked, enabling LOs to capture every opportunity.
- **LLPA near-miss analysis**: The LO copilot can proactively identify and recommend a consumer's optimal pricing across all scenarios, directing the loan officer to the ideal rate and pricing strategies to facilitate a better borrower experience.
- **24/7/365 accessible and on the go**: LOs can converse and collaborate with Polly/™ AI to complete any workflow in a matter of seconds - any time, from anywhere, and on any device.

EXPLAIN INELIGIBILITY
