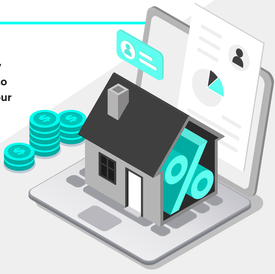
POLLY

PREPARE TO CATCH

The Refi Wave

The mortgage industry remains highly cyclical. As mortgage rates continue to drop, are you prepared to optimize your refinance opportunities?

HEADS-UP: If you're not already employing an enterprise strategy, you're already two steps behind.



Polly has pioneered an unrivaled suite of platform products, features, and cutting-edge mortgage capital markets tech that enables our lender clients to:

- Deliver a tailored, high-impact borrower experience
- Optimize each and every refinance opportunity

Batch Processing API

Proactively monitor and analyze loan pipeline pricing to identify opportunities to recapture business and re-engage existing clients.

Monitor servicing assets for new profit opportunities

- Nothing falls through the cracks with inevitable market shifts

Generate leads based on previously funded pipeline

- Someone is going to win their business; **IT SHOULD BE YOU!**

APIs are tailored specifically to your unique business and process

- Point-in-time solution
- Run at any frequency desired

Save on FTEs

- Let automation work behind the scenes
- 24/7 proactive monitoring

Pipeline Monitoring

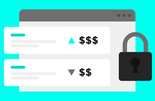
Native pipeline monitoring automatically detects and notifies teams of any loan-level change that might affect price.

What we will do:

- Proactively identify any change in circumstance
- Disclose details in a timely manner (a win for compliance teams!)

What we won't do:

- Ask you to build time-consuming and complicated reports
- Charge you - ***No vendor dev work required!***



BONUS FEATURE TIP:

Polly's PPE can automatically process a reprice when any data has changed but the price has not been impacted.

Real-time Rate Alerts

Be the rate expert to prospect and current borrowers

Empower borrowers to make the most informed decisions

Provide proactive intel on important rate data

Flexible, Automation-enabled Lock Desk Workflows

We have you covered: Locks, extensions, re-locks, re-prices, price exceptions, float downs, product change, and more.

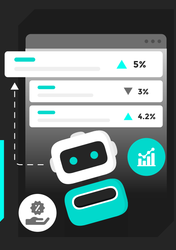
Streamline processes for secondary marketing and capital market teams, and loan officers alike:

- Fully customizable workflows
- Embed auto-accept rules for granular scenarios
- Eliminate errors
- Exercise unmatched precision in any market

Interactive copilot for LOs

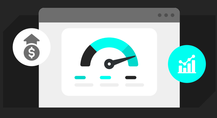
Fueled by Polly's proprietary technology and data, Polly/™ AI leverages powerful, state-of-the-art AI/ML and natural language processing (NLP) to transform the way loan officers conduct business and provide consumers with superior mortgage products and prices.

The interactive AI copilot taps into the PPE's unrivaled depth to process and interpret eligibility, and proactively articulate how to make loans eligible via a range of outcome-driven results.

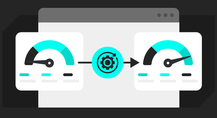


Comprehends and articulates ineligibility

Transforms complex tasks into actionable advice



Helps loan officers optimize rates and prices



Gives recommendations to make ~~ineligible loans~~ **ELIGIBLE**

Let's talk! Implement an enterprise strategy today.
